

No. Case 1.  
The observation on November 15, 1967, over Florence, of a dart-shaped object seen by the crew of a British European Airways Comet Airliner.

No. Case 2.

The observation on September 11, 1967, over Marcelora, of a large manoeuvrable cone-shaped object, which flew at great speed seen by the crew of an Air Ferry TC-6.

Case 3.

*Question filled out (1.2.2)*  
The observation on April 22, 1967, over Devon, England, of a large balloon-like object seen by seven R.I. Coastguards and an Air-Vice Marshall.

No. Case 4.

The observation on October 24, 1967, of a formation of seven very bright lights in the sky over Hampshire, England, by a Wing Commander and his wife.

Case 5.

No. Case 6. ? When, Where?  
The observation on October 31, 1967, over Bournemouth, England, of two manoeuvrable, red dull metallic discs seen by a reliable observer.

The observation of Mr. Angus Brooks. (Details sent to Dr. Condon by Mr. Brooks).

Out of the above cases, the Ministry have investigated Nos. 3, 4, and 6.

I feel that I must point out to you that during the October "flap", I received more than two hundred reports of UFOs many of which I have still to evaluate and check on. Amongst these reports, are at least a further dozen reports of potentially high import, but, I have deliberately excluded them as I have no knowledge of the background of the witnesses.

The one final point that I would like to cover, is the investigation at Colorado. It came as a surprise to me to hear that Dr. Saunders and Norman Levine had been fired also, that Mrs. Armstrong had resigned as your Administrative Assistant. As you are no doubt aware, there has recently been a great deal of speculation that the final report of the Project was destined, for some time now, to be a white-wash, this, coupled with some statements made by Dr. Condon, and the fact that so many members of the staff have left, is very disturbing to people like myself who had hoped that this was to have been an impartial investigation. Yes, it very much appears that there is an air of dissatisfaction amongst the staff of the Project. Can you see why this is?
